

SKYVIEW

Kirtas Technologies, Inc., the company which captivated the world with its award-winning APT (automatic page-turning) imaging systems, proudly introduces yet another fresh, innovative approach to digital imaging. The solution is creativity from the top down—the SkyView.

Superior Image Quality

A flatbed imaging system unlike any other, the SkyView™ 3525 captures a 90x64 cm aerial view with a 21.1 megapixel, high-resolution Canon EOS 5D Mark II digital camera. A special light air vacuum flattening technique ensures that materials remain flat, motionless and calm, with no folds or wrinkles. Even more, an extended shelf slides easily to accommodate oversize books with foldouts and large pages. Digital imaging has never been easier!

Quality Assurance Through Technology

Moving camera, sliding shelf, flowing air—all working seamlessly together to create the perfect image of your important documents. Watch your productivity take-off with a whole new perspective on digital imaging. You've reached a new height with another brilliant Kirtas solution. Enjoy the view.
